WATER METER GRAFT

The health and pocketbooks of the people are again menaced. The water meter promoters are at it again.

This time a section of the daily press is backing the scheme. Water meters mean less water. Less water means poor health. Water meters are costly. They are unnecessary. The man who proposes water meters at this time is a traitor to the public.

Wet Umbrellas

THE green cord that connects your telephone to the bell box is an essential part of telephone equipment.

There are many ways in which this cord can be so injured as to interrupt the service.

Almost all forms of moisture are conductors of electricity, and a wet umbrella with its folds touching this telephone cord will short circuit the wires and cut off service. Recently, after a heavy rain, ninety-six telephones were put out of order by wet umbrellas coming in contact with the cord. A carefully handled glass of water, an overflowing ink-well, rain from an open window, the careless mopping of office floors,—any one of these may cut off your telephone service.

Please protect the telephone cord, and all interior wiring and telephone equipment, from moisture.
